

The Many Faces of Gigi

You may be wondering... Who is Gigi and how can this fun toy help my relationship? Gigi will be your partner's favorite companion — next to you, of course.

Gigi™
Item 4003

Gigi is Passion Parties' exclusively designed top-selling passion toy. It's a super-stretchy masturbation sleeve that's modeled after a real vagina. Gigi is fully reversible for easy cleaning and is lined internally with pleasure ribbing. Made of TPR which warms to the touch for a realistic experience for him.

So how can Gigi help your relationship? Listed below are the three most popular ways this top man's toy can become a couple's toy for the both of you.

1. The Ménage a Trois

Gigi isn't just for his solo fun – enjoy during oral sex on him. Make sure the sleeve is well lubricated and fits him properly. Continue to move the sleeve in slow and steady up-and-down motions until he's ready to climax. Then pull Gigi up all the way over the erect penis, creating a vacuum effect, and his ejaculation will be "swallowed" by Gigi. This allows you to "go all the way" using Gigi.

First, start out lubricating Gigi and his shaft with a small amount of an edible lubricant like Lickety Lube or Embrace Sensual Lubricant.

Slowly slide the Gigi sleeve– fits as snugly as a vagina - onto his erect penis so that it completely rests against the base of his shaft, leaving the head exposed.

Keep this in mind - Gigi can also "swallow" for you. As he gets closer to climax, ensure that the head is completely engulfed by Gigi so your partner gets every last bit of necessary stimulation.

2. Gigi: Your Personal Bumper Guard

Another option is to use the Gigi sleeve as a buffer during vaginal or anal intercourse.

The first thing you do is cut Gigi to a desirable "buffer" size. For example, if your partner's penis is nine inches long from base to tip and you're only comfortable accommodating six inches, cut the Gigi into a 3" portion.

With lubricant, slide the mini-Gigi over his shaft so it rests at the base of his penis. You can then have sex as you normally would, and Gigi prevents the additional length of his penis from entering your vagina or anus. If a condom is worn, Gigi goes on after the condom. With this method, you can relax knowing he's not penetrating too deeply and he still gets the full coverage experience.

Tip: For anal sex, use long lasting Slip 'n Slide or Slippery Stuff Gel Lubricant not just inside Gigi, but as your lubricant of choice for any type of anal penetration.

3. The Other Side of Gigi

Gigi is a great toy that can be used to simulate anal sex and it's an experience both of you can share together. Gigi is very flexible and can be completely reversed. When in this inside out state, the opening on the opposite end is actually smaller and tighter, just like an anus. Make sure the inside, opening and his penis are well-lubricated, insert his shaft into the reversed Gigi and enjoy simulated anal sex.

So there you have it, three ways Gigi can enhance your relationship with your partner. It would be a good idea to have twins, that is, have two Gigis on hand for adventurous playtimes. One for his personal, private use and one you can resize and use as a couple. Don't forget the edible lubricant for oral sex and the silicone lubricant for anal play. And, as always, the Passion Parties Toy Cleanser for when playtime is over. Take good care of Gigi and she'll take good care of you.

Gigi Masturbation Sleeve

Please let me introduce myself. My name is Gigi. I have been purchased for you with love. I have abilities beyond your expectations. As you can see by my shape and contours, I may become your new right hand best friend. I am very flexible and if you desire I can withstand some punishment. I am looking forward to a long lasting relationship, but I do need special care.

1. You will find intense pleasure when I am well lubricated. Revelation Lubricant is great, so don't skimp. For even more intriguing moments, try RomantaTherapy Sensual Warming Lubricant.
2. If we are a trio, I like to be in the middle. As you can see I am open on both ends, I become an assistant, giving you what you need while allowing your partner to concentrate on your most sensitive tip.
3. You will love the sensation you get when you pinch my tail end.
4. Thoroughly wash me with Passion Parties Toy Cleanser and remember I said I was flexible, so feel free to turn me inside out. Rinse me. Let me dry.
5. I need my own space, so please keep me away from other toys as I have a tendency to get stuck on them. I prefer my own plastic baggie with a bit of cornstarch to keep me fresh.
6. I also am not too fond of the heat, I can melt and we don't want that to happen.

Passionately yours,
Gigi
